NEVEON

The Future of Foam

FROM VELVET SOFTNESS TO IMPACT-RESISTANCE: FOAMS SCORE EVERY TIME

Many products in the sports and leisure area only achieve their special characteristics with the use of various foam types. With NEVEON, you have an expert on your side that offers an extensive range

of product solutions for both sports facilities and athletes. Whenever a foam has to offer a certain advantage, we optimize this in collaboration with the customer.

WE ENSURE YOU ENJOY A PERFECT MATCH

We combine our vast selection of ester- and ether based flexible foams with advanced processing and finishing technologies. The result is products that match customer requirements to perfection. On the one hand, we manufacture custom-cut or die-cut semi-finished products for footwear, skiing goggles and

cycling bibs, while on the other, we supply ready-made components for ski slope safety. In addition, we offer our highly elastic and easy-to-install **kinea** shock pads for sports surfaces and artificial turf in roll and sheet format. In fact, whenever foam can improve product quality, we are the ideal teammate.

kinea OUR FOAMS DEMONSTRATE TOP PERFORMANCE IN EVERY APPLICATION

Due to their special properties, our **kinea** products can withstand extreme weather conditions and intensive use during their entire life cycle. The high elasticity of our open cell foams provides proven durability and endurance.

HATTRICK FOR SPORTS SHOCK PADS: MORE PROTECTION, PERFORMANCE AND FUN FOR SPORTSPEOPLE

Our **kinea** shock pads are used under artificial turf and indoor sports floors, acts as an elastic, shock-absorbing layer protecting the athletes and sportspeople. From hockey, to rugby and football, excellent ball bounce and the absorption of irritating floor vibrations increase both the performance and the comfort of the athletes. Our **kinea** shock pads are team players and can be used in combination with

heating systems for year round playability. Due to the high density of the material, installation is easy, the shock pad rolls out flat and firmly onto the subbase. This creates a smooth, even surface on which the floor can be laid immediately. In addition, maintenance is minimized because **kinea** shock pads retain its properties throughout the product's life cycle.

OUR kinea SHOCK PADS

A unique elastic **kinea** layer under artificial turf, playgrounds or sports fields provides shock absorption and optimal protection for everyone, from children at play to professional athletes. We offer different types of material that perfectly match the respective application.

kinea SLOPE STARS

Our **kinea** products are stars of the slopes and ensure enhanced safety in the mountains in a variety of applications. The product range extends from covers for ski lift supports to figures and seating for children's skiing courses. The special feature of these products is their suitability for all seasons weather conditions.

FOAM.SOFT

Our particularly soft foams with flocked surfaces provide a wonderfully soft, velvety touch. With this special property, they are especially suitable for all skin contact applications, such as for ski goggles padding.

A SUSTAINABILITY PLUS

Since all **kinea** shock pads are composed out of recycled materials, we hereby also pursue the thoughts of the circular economy.

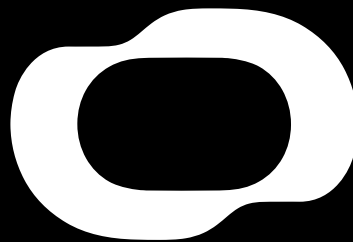

WE ARE NEVEON

We develop products that enhance the lives of people around the world. As a specialist for innovative and sustainable foam solutions we pursue fresh approaches and are passionate about future-oriented ideas.

We offer exceptional flexible and composite foams for the vast diversity of applications provided by our Living & Care, Mobility and Specialties business units.
